Student Funding and Expectations

Students accepted into the Winterthur/University of Delaware Program in Art Conservation (WUDPAC) receive full tuition scholarships and annual stipends. Numerous additional funding opportunities are also made available, and a support network of faculty is available to assist with the application and reporting processes (see below).

In all cases, this funding is an honor and a privilege. The opportunity to study while receiving sufficient funding to cover essential expenses is a worldwide rarity. Additionally, very few Master's-level students, be it at the University of Delaware or elsewhere, receive funding of any kind; most pay graduate tuition. Currently at UD, graduate tuition is $34,000 annually.

Acceptance of this funding denotes a commitment to meeting the expectations outlined below.

Expectations of all WUDPAC students:

1. Selection of class jobs in first and second year, as defined by previous class documents
   - Examples include: class president, caterer(s), thank-you officer(s), social media coordinator, A/V tech, etc.

2. Coordination and facilitation of WUDPAC Admissions Week
   - Includes: corresponding and “hosting” applicants, managing various parts of the interview process, assisting admissions committee with scheduling and catering

3. Participation in select tours
   - For example: special interest groups, potential donors, prospective students, ticketed Winterthur public tours

4. Organization of ANAGPIC conference, if hosted by WUDPAC during students’ first or second years

5. Support of program publicity efforts
   - Examples include: actively posting to social media sites; writing and participating in blog posts, interviews, and/or articles about student projects; delivering public lectures; participating in outreach projects

6. Annual completion of short (2-page) year-end summary reports to be shared with funders and/or senior administrators.

Each student receives a full tuition scholarship and the same fellowship award (stipend) as their classmates. However, different funding sources may be allocated for select students’ stipends. For example, secured grant monies from the National Endowment for the Humanities (NEH) cover the stipend costs of two students per class annually; the Library and Archives Conservation Education (LACE) curriculum is funded by the Andrew W. Mellon Foundation.

The source of funding allocated for a student’s stipend will determine how the expectations of said student is particularly focused. See the chart below that captures the main criteria of expectation depending on allocated funding source.
<table>
<thead>
<tr>
<th>STIPEND FUNDING SOURCE</th>
<th>EXPECTATIONS</th>
</tr>
</thead>
</table>
| **THE QUESTERS**       | • Reports submitted to The Questers International Board at the conclusion of each semester outlining activities and academic progress;  
• May be asked to attend one annual meeting during three-year tenure, hosted by the Board and introduced to the Questers membership;  
• May be asked to greet (and occasionally offer a brief tour to) Questers’ groups who visit Winterthur and are anxious to meet briefly the Fellow they are supporting via their membership dues. |
| **MELLON FOUNDATION (LACE)** | • Completion of the LACE Consortium Curriculum;  
• Tracking of individual professional development spending, submitting monthly expenditures forms with details about the reason for each expense;  
• Providing additional context for expenses to support program leaders’ quarterly reports to the Mellon Foundation, as well as information about major treatments, research projects for science and preventive, and any use of the Mellon-funded aging oven |
| **NATIONAL ENDOWMENT FOR THE HUMANITIES** | • Completion of one outreach-related activity per year and reporting back to the NEH on the details of these activities |
Grants and Fellowships: Managing the Process
Applying for grants and fellowships requires coordination of various activities and people. This checklist is intended to remind graduate students at UD of steps they may need to take in order to smooth the process and avoid creating problems for other people.

1. Identify potential sources well in advance of deadlines: use library search tools, professional organization listservs and Web sites, the Graduate Office Web site, the Research Office, and your own department’s resources to identify potential sources of funding for your work. The more lead time the better.

2. Study the fellowship or grant announcement. Note carefully whether you qualify and whether there is a good match with your goals and needs. Determine whether you have the time to generate a strong application. Make an early go/no go decision.

3. Prepare an abstract summarizing your project. Write in language intended to reach a broad audience. Remember that no one is as expert as you. Share your abstract with others to be sure it makes sense: that the work is important, focused, and necessary.

4. Consult with your advisor and graduate director. Make sure any funding source you target makes sense for your stage of career development. Assess your project and degree timeline for good fit with the timeline of the grant or fellowship award.

5. Secure proper approval if human subjects are involved. Make sure you have completed training in human subjects research protections before you submit your project for approval. Human subjects review takes time and involves a committee that meets on their own schedule, not yours. Read the solicitation carefully and understand if approval must be obtained before you submit your funding application, or if you can have the Research Office certify that the project will be appropriately reviewed before the work starts. [https://research.udel.edu/regulatory-affairs/human-subjects/](https://research.udel.edu/regulatory-affairs/human-subjects/)

6. Determine what institutional signatures are needed. Make sure you have planned adequate time for institutional review and sign-off, if such is required.

7. Determine whether you need supporting letters. Give letter writers plenty of time and give them guidance so they can write strong letters.

8. Prepare a draft of your proposal, carefully following the agency’s guidelines and language. Continue to write in ways that engage a broad audience. Prefer a plain, direct, visual style.

9. Review and revise multiple drafts. Get peers to review your proposal. Seek your advisor’s feedback.

10. Prepare a budget. Be clear about allowable expenses and overhead, if allowed. Review your budget with your advisor or with a grants officer in the Research Office.

11. Allow plenty of time for assembling, printing, filing, signing, and sending.

Mae and Bob Carter Professional Development Awards
for students in the Art Conservation Department at the University of Delaware

Grants up to $1,000 per student are available for intensive research study, to visit collections, libraries and scientific facilities, improve connoisseurship skills, study the history of technology, attend relevant seminars and workshops and professional conferences and to see art and artifacts in their cultural context. Applicants are eligible for only one award during their enrollment.

To apply for funding, a two-page project description that outlines the proposed activities, goals and anticipated outcome should be submitted to the Mae and Bob Carter Award Committee and Susan Behrens. Application deadlines are April 1 and October 1 annually. A detailed budget must be included. Funds can be used to support travel, housing, and registration fees only. A final report should be submitted to the program office within two weeks following completion of the award activity.

Debra Hess Norris
Chair and Professor of Photograph Conservation, Art Conservation Department
Unidel Henry Francis du Pont Chair
Director, Winterthur/University of Delaware Program in Art Conservation
University of Delaware
303 Old College
Newark, DE 19716

Dear Debbie,

I am writing to apply for funding from the Samuel H. Kress Foundation to support a three-month summer internship at English Heritage in London, United Kingdom. I will be working directly under Conservation Scientists, Dr. David Thickett and Dr. Naomi Luxford, on preventive conservation research, along with traveling to the historic sites to assist in on-site preventive work.

English Heritage is a charitable trust that is responsible for over 400 historic monuments, buildings and places. The locations range from prehistoric sites to modern country houses. The properties are managed by the trust and include many active preventive conservation professionals and scientists who specialize in preventive conservation research.

My time at English Heritage will be largely focused on the implementation of a scientific research project. The project will use modeling to predict internal showcase environments from known room environment parameters. I will learn how to assess air exchange rate measurements, how to collate and assess data, and evaluate the performance and weaknesses of existing models. The time performing this research will grow my preventive conservation research skills by working with well-established and respected preventive conservation scientists.

Outside of my work doing research, I will also have interaction with regional conservation teams to see how preventive conservation is being implemented. England has a well-established program in training preventive conservators, and learning from one of the largest site management institutions in the country will be an excellent way for me to consider the growth of the preventive conservation specialty within the United States. My hope is to visit preventive conservation teams at The British Museum, The Tate, The Victoria and Albert Museum, Historic Royal Palaces, and of course many of the sites that are operated by English Heritage.

I also hope to visit Eton College, a preparatory school outside of London, where I can visit an objects conservator, Aimee Sims. She has figured out ways to incorporate her work into the classes at the school and even involves some of the students in the preventive work for the collections around the school. I am eager to learn more about her experiences following my own work with students at Central High School in Philadelphia.
I have planned several other trips including: Paris and Berlin where I hope to visit other conservation training programs, art museums, and meet practicing preventive conservators. It would be wonderful to visit Bertrand Lavédrine and Malalanirina Sylva Rakotonirainy at the Centre de Recherche sur la Conservation in Paris, as these two researchers were the main motivation behind the research I am completing this year as a second year graduate fellow.

Thinking more about global conservation institutions, I have also included a trip to Rome, where I am hoping I can visit the International Center for the Study of the Preservation and Restoration of Cultural Property (ICCROM). At ICCROM I hope to learn more about global initiatives for preventive conservation. Following my time at English Heritage, I plan on attending the International Institute for the Conservation of Historic and Artistic Works (IIC) student conference in Cologne Germany from September 12-14. This will be an excellent way to meet other emerging conservators from around the world.

I am eager to take advantage of the dense and diverse cultural offerings of Europe through connoisseurship traveling. I am certain that new ideas of places to visit will be suggested from preventive conservators I meet once I am there, so it is possible for the plan to shift slightly. I am eager to see how other training programs and cultural institutions are integrating preventive conservation into their practice. Since preventive conservation and the affiliated research has such a global influence, I anticipate that these visits will help me to create future partnerships and collaborations from conservators outside the United States.

As seen in the calculated budget below, the costs of interning in London for three months exceed the generous stipend from the WUDPAC program. This funding would help to defray these costs and provide me the ability to take full advantage of the rich cultural history of Europe, and to learn about its variety of preventive conservation approaches through networking opportunities. Thank you for your consideration of my application.

Sincerely,

Melissa Davis King
Graduate Fellow in Preventive Conservation
Winterthur/University of Delaware Program in Art Conservation

III. LETTER OF ACCEPTANCE

01 March 2019

To Whom it may concern

re: Melissa King Internship

English Heritage will host Melissa King for a conservation research internship from June to August 2019. In that period she will investigate methods to predict internal showcase environments.

Yours sincerely

David Tidcombe
Senior Conservation Scientist
Curation Department
English Heritage

1 WATERHOUSE SQUARE, 138 – 140 HOLBORN, LONDON EC1N 2JX

Please note that English Heritage operates an access to information policy. Correspondence or information which you send us may therefore become publicly available.
IV. CURRICULUM VITAE

MELISSA DAVIS KING
1908 Sherwood Road, Arden, DE 19810
melissa.davis.king@gmail.com (617) 721-4804

EDUCATION
July 2017- Present WINTERTHUR/UNIVERSITY OF DELAWARE PROGRAM IN ART CONSERVATION Wilmington, DE
First-year graduate fellow with a specialization in preventive conservation
Overall GPA 4.0

2006-2010 UNIVERSITY OF MICHIGAN, Ann Arbor, MI
B.A. in History of Art and Communication Studies with a focus in Studio Art
Overall GPA 3.654/4.0, Date of Graduation: May 1, 2010

OTHER EDUCATION
2010-2014 BUNKER HILL COMMUNITY COLLEGE, Charlestown, MA
Post-graduate student with a focus in General Chemistry and Studio Art (3 semesters)

2011 UNIVERSITY OF MASSACHUSETTS, Boston, MA
Post-graduate student with a focus in Organic Chemistry (2 semesters)

UPCOMING EXPERIENCES
June 2018 DELAWARE PUBLIC HUMANITES INSTITUTE (DELPHI), Newark DE
Fellowship Recipient and Institute Participant
(2 weeks)
Develop skills in public outreach to engage with non-specialists about my research focuses; partake in seminars, workshops, and hands-on experience with public speaking, digital media, and marketing

Summer 2018 BROOKLYN MUSEUM OF ART, Brooklyn, NY
Objects Conservation Intern, supervised by Lisa Bruno
(9 weeks)
Assist in the documentation, examination, and treatment of 9th century BCE Assyrian stone reliefs within the galleries; implement the use of RTI and Multi-Spectral Imaging to locate remaining pigments on the surface of the stone; assisting staff with integrated pest management; develop preventive protocol for accessible art exhibit for blind visitors

CONSERVATION AND MUSEUM EXPERIENCE
July 2016- July 2017 GIANFRANCO POCOBENE STUDIO INC, Malden, MA, Newport, RI, Durham, NH
Paintings Conservation Technician, supervised by Gianfranco Pocobene
(project-based work, 2-4 days a week)
Conserving distemper and encaustic decorative murals by John La Farge within the United Congregational Church in Newport, and egg tempera WPA murals at UNH in Durham, NH; dry cleaning with chemical sponges and localized wet cleaning; consolidating with BEVA 371 and Aquazol; inpainting with acrylic and Qor paints
Jan 2017- May 2017  
MUSEUM TEXTILE SERVICES, Andover, MA
*Textiles Conservation Intern*, supervised by Camille Breeze
(120 hours, 1 day a week)
Dry cleaning and vacuuming historic quilts, Native American garments, concealed objects; designing and building dress mounts; hand-sewing temporary netting; wet cleaning and bleaching; photo documentation

April 2017
WESTERN CENTER FOR THE CONSERVATION OF FINE ARTS, Denver, CO
*Paintings Conservation Intern*, supervised by Camilla Van Buren
(80 hours)
Inpainting of a 1930 Allen Tupper True mural with Gamblin Conservation paints; completing during and after treatment photography; creating fills with spackling that were applied with a spatula

June 2016
WUDPAC PAINTINGS CONSERVATION STUDIO, Wilmington, DE
*Paintings Conservation Intern*, supervised by Dr. Joyce Hill Stoner
(200 hours)
Consolidating with BEVA 371, Aquazol 200; creating fills and inpainting with QOR, Golden PVA, and Gamblin on easel painting and clock face; creating cross-sections and condition reporting; UV examination; solvent cleaning; receiving training in care and handling; installing backing boards and frames

2013-2017
SCULPTURE AND DECORATIVE ARTS CONSERVATION SERVICES LLC, Somerville, MA
*Objects Conservation Intern*, supervised by Barbara Mangum
(1-2 days per week, 4 week full-time project, 2 week full-time project)
Treating and documenting ceramic, wood, leather, metal, and stone objects, and performing on-site treatment of outdoor stone gravestones and monuments; cleaning and repatination (hot and cold processes) of outdoor bronze sculpture

2015-2017
HISTORIC NEW ENGLAND, Haverhill, MA
*Objects Conservation Intern*, supervised by Michaela Neiro and Alex Carlisle
(1-2 days per week)
Conserving decorative art objects including: plastics, furniture, glass, metal, ceramics, textiles, and wallpaper; performing regular maintenance and survey of historic homes and their collections in preparation for seasonal closures and openings

2011-2013
MUSEUM OF FINE ARTS, Boston, MA
*Objects Conservation Intern*, supervised by Pamela Hatchfield and Mei-An Tsu
(1-2 days a week)
Assisting in the documentation and research of two stone polychrome Etruscan Sarcophagi by creating detailed digital condition diagrams in Adobe Photoshop; performing curatorial research; working with museum scientists to study composition of samples with XRF and FTIR; studying the remaining pigments using visible induced luminescence, channel mixing in Adobe Photoshop, IR reflectography, and IR photography; dialoguing with the public about two stone Etruscan Sarcophagi in a conservation laboratory space entirely visible to the public

2010-2011
NATIONAL PARK SERVICE NORTHEAST MUSEUM SERVICES CENTER, Lowell, MA
*Objects Conservation Intern*, supervised by Brigid Sullivan
(1-2 days a week and 4-week full-time project)
Treating historical objects and architectural features including ceramics, metal, glass, and wood, and performing on-site architectural conservation of original beadboard wall at the home of Frederick Law Olmsted and regular maintenance of bronze sculpture at Bunker Hill Monument
2010-2011  PEABODY MUSEUM OF ARCHAEOLOGY AND ETHNOLOGY AT HARVARD UNIVERSITY, Cambridge, MA
IMLS Map Project Conservation Intern, supervised by T. Rose Holdcraft
(4 days a week)
Creating condition reports, surface cleaning, minor tear repairs, humidification and rehousing for museum’s archival collection with over 150 years of archaeological documents; constructing fitted pallets and custom boxes for long-term storage of ethnographic objects

2010  UNIVERSITY OF MICHIGAN GABII PROJECT 2010 ARCHAEOLOGICAL FIELD SEASON, Frascati, Italy
Field School Student, Directed by Nicola Terrenato (Professor of Classical Archaeology)
Excavating and cleaning of objects removed from a Roman City-State site; mechanically cleaning coins using scalpels under a microscope; visiting ICCROM library to research coin conservation

2010  KELSEY MUSEUM OF ARCHAEOLOGY-UNIVERSITY OF MICHIGAN, Ann Arbor, MI
Objects Conservation Intern, supervised by Suzanne Davis and Claudia Chemello
(1-2 days a week)
Treating archaeological objects including: ceramics, marble, wood, glass, and ancient coins; environmental monitoring and gallery maintenance; writing condition documentation and photographing objects

PROFESSIONAL AFFILIATIONS
2010-2018  AIC (American Institute for Conservation), student member
2018  IIC (International Institute for Conservation of Historic and Artistic Works), student member
2018  ICOM (International Council of Museums), student member
2017-2018  PACA (Philadelphia Area Conservation Association), member
2012-2017  NECA (New England Conservation Association), member
2012-2016  SPNHC (Society for the Preservation of Natural History Collections), member

CONFERENCES/WORKSHOPS ATTENDED
April 2018  ANAGPIC (Association of North American Graduate Programs in Art Conservation)
Kingston, ON
May 2016  AIC/CAC Joint National Conference – Montreal, QC
June 2012  SPNHC National Conference – New Haven, CT
May 2012  AIC National Conference – Albuquerque, NM

CONSERVATION OUTREACH EXPERIENCE
2017-present  UNIVERSITY OF DELAWARE ART CONSERVATION PROGRAMS, @ud_artconservation
Social media manager and photographer
Managing the Instagram and Facebook page and working to increase the awareness of art conservation and the field of study through regular posts and engaging content.
April 2017  CREATING ART TO LAST: A Conversation with Art Conservators
The Armory Cafe, Somerville, MA
Leading a group of volunteers to plan an outreach event for a presentation and informal
meet-and-greet between local artists and conservators; organizing presenters and
compiling information and resources for handouts; forging partnerships between local arts
organizations; seeking sponsorships and grant funding; marketing the event through social
media and press

PRESENTATIONS
May 2014  ST. MARK’S SCHOOL, Southborough, MA
“Art Doctor: The use of science to save Art,” Annual science-themed colloquium
May 2012  AIC ANNUAL MEETING, Albuquerque, NM
Featured in the ECPN poster for outreach work at the Museum of Fine Arts, Boston,
“Creative Endeavors and Expressive Ideas: Emerging Conservators Engaging through
Outreach and Public Scholarship.”
Feb 2012  MUSEUM OF FINE ARTS, Boston, MA
Gallery Talk: “Conservation in Action: The Conservation of two Etruscan Sarcophagi”

COMMUNITY/VOLUNTEER ACTIVITIES
2014  SOMERVILLE ARTS COUNCIL LCC GRANT COMMITTEE, grant panelist
2012  ANGELS PROJECT, Volunteer, AIC Annual Meeting, Sandoval Historical Society,
Sandoval, NM
2010  DETROIT INSTITUTE OF ARTS, Volunteer, Gallery Service, Detroit, MI

STUDIO ART AND CRAFT SKILLS
Easel painting (acrylic, oil, watercolor, gouache, egg tempera, faux finish), mural painting, drawing,
printmaking (monotype, solar plate, color reduction, woodcut, linoleum, screen printing), glass (furnace,
lampwork), woodworking, photography (dark room, digital), sewing (hand embroidery, machine
stitching, patchwork, dressmaking), metalsmithing (hammer forming, planishing, cutting, polishing, hot
and cold patination), ceramics, mixed media, water and oil-based gilding, taxidermy

ADDITIONAL SKILLS
Conversational in Italian and Spanish; skilled in all Adobe programs, Microsoft Office, Quickbooks®,
The Museum System, FileMaker Pro; familiar with current digital photographic technology, website
design, graphic design, marketing, press releases, small business financial management and social media

OTHER PROFESSIONAL EXPERIENCE
2011-Present  PAWBLO PICASSO®, LLC, Joy Street Studios, Somerville, MA
Owner/Pet Portrait Artist
www.pawblociasco.com
Specializing in custom pet portraits created from photographs using acrylic paints;
promoting business through graphic design, social media, press releases, corporate
sponsorship, art shows, and live painting at dog parks and pet stores; overseeing interns;
managing all financial and
business activities; completing over 500 paintings shipped worldwide

2014-2016  MIMAC, LLC, Stoneham, MA
Bookkeeper/Office Manager
Managing the office of five McDonald’s restaurants; entering invoices and printing
checks using Quickbooks; operating online Payroll for over 300 employees
February 24, 2020

To Whom it May Concern,

I feel so fortunate to have received $3,500 to support my third-year internship in paintings conservation at the Royal Picture Gallery Mauritshuis, home to a renowned collection of 17th-century Dutch and Flemish paintings. The following report details how this grant has enriched my current internship experience as well as supported connoisseurship travel to European collections as a supplemental learning experience.

The Mauritshuis is located in Den Haag, Netherlands, and holds masterpieces such as Vermeer’s *Girl with the Pearl Earring*, most recently the subject of a public view technical examination. This internship coincides with “The Year of Rembrandt,” marking the 350th anniversary of Rembrandt’s death. In celebration of Rembrandt’s life and works, numerous Dutch institutions including the Rijksmuseum and Mauritshuis are conducting public view treatments and technical studies on Rembrandt paintings. *Rembrandt and the Mauritshuis*, an exhibition from January 31 to September 15, 2019 celebrated eighteen Rembrandt paintings within the Mauritshuis collection and engaged the public through providing information on acquisitions, historically problematic authenticities, and urged close looking. One of my current treatment projects (Figure 1) is a painting previously attributed to Rembrandt which was most recently in the *Rembrandt in the Mauritshuis* exhibition. Although the painting now is widely accepted to be done by an artist working during Rembrandt’s time and not by the Master himself, Rembrandt’s influence is clear. The painting has a thick, severely yellowed varnish; however, this was not removed and the painting rather received an recent aesthetic treatment (adjustment of matte retouchings, etc.) prior to its inclusion in the exhibition. As the painting has now returned to the studio, there is an opportunity for the painting to receive a full treatment to address the discoloured yellowed varnish, disfiguring fills, and large areas of retouching. Additional funding has allowed me to visit several additional institutions to view works by Rembrandt, most notably within Dutch collections including the Lakenhal Museum in Leiden, and the Rembrandthuis and Rijksmuseum in Amsterdam. This has allowed me to look at paintings within Rembrandt’s circle and has allowed for comparative close looking of the techniques used.

![Figure 1. Reducing discolored varnish off of a painting previously attributed to Rembrandt, the painting is now considered to have been executed by someone within Rembrandt’s circle. Photo: Royal Picture Gallery Mauritshuis](image)

Studying in The Netherlands has become an important goal for my academic work and research, and I have enjoyed embracing Dutch culture from a personal perspective and to learning the differences and similarities in European conservation practices as compared to the American conservation curriculum. Part of expanding my perspective on conservation approaches has been to visit nearby studios and training programs. This has included visiting the third-year paintings University of Amsterdam.
conservation students at the Stichting Restauratie Atelier Limburg (SRAL) in Maastricht for a joint course in imaging artworks and an upcoming trip to the Hamilton Kerr Institute in Cambridge, UK.

The Kress grant has allowed me to travel outside of the Netherlands, allowing me the opportunity to explore nearby cities which were the epicenter of cultural exchange and art production. I was particularly excited to visit Madrid which allowed me to visit twelve cultural heritage sites and museums including the Museo Nacional del Prado, a true highlight of the trip. The Museo Nacional del Prado is the National Spanish art museum that houses a collection spanning from the 12th to early 20th century. The museum is particularly known for its works by Francisco Goya and Diego Velazquez and is the largest museum in all of Spain. It was my first time visiting and I was completely overwhelmed by the breadth of the collection. I was most excited to see Las Meninas by Velazquez, for the first time in person, one of my favorite paintings I learned about during my art history degree. I was also fortunate to see the newly restored Fra Angelico, The Annunciation, on view in the galleries. I was also able to see Rogier van der Weyden’s Descent from the Cross, which was a wonderful look into the similarities and differences between that and the Mauritshuis van der Weyden’s Lamentation of Christ. The “other” version of the Mona Lisa, most likely executed by a pupil of Leonardo’s pupil, Albrecht Durer’s Self Portrait, Caravaggio’s David with the Head of Goliath, and Memling’s Triptych of the Adoration of the Magi, were also among my favorites that I saw. I was also surprised at the number of Goya’s black paintings within the collection. One of my personal favorites was a painting that was attributed to Goya until 2008 but now has its attribution being reconsidered, perhaps by Asensio Juliá.

Other institutions I was fortunate to visit included: Museo Nacional Centro de Arte Reina Sofia, National Archaeological Museum, Sorolla Museum (Figure 2), Neptune Fountain, Palacio de Cristal, Estanque Grande del Retiro, Thyssen-Bornemisza Museum, Royal Palace of Madrid, Plaza Mayor, Temple of Debod, and the Catedral de Santa María la Real de la Almudena. Viewing Spanish art in particular allowed me to see the influence of Spanish art on Flemish art as the Spanish Crown ruled the Lowlands including Flanders from 1556 to 1714. This provided me with a better understanding of so many Dutch and Flemish collections that I am surrounded by everyday.

Travel to additional collections within Flanders in present day Belgium also have aided in this interpretation and understanding of differences and similarities between Dutch and Flemish art. The collections I have been fortunate to visit include: Museum of Fine Arts Ghent, The Castle of the Counts, Ghent Belfry, the Design Museum, Broeningemuseum, Museum of The Church of Our Lady
(Figure 3), Saint John’s Hospital and Hans Memling Museum, the Rubenshuis, and the Cathedral of Our Lady Antwerp. The Museum of Fine Arts Ghent was a highlight of my trip as I was finally able to see the Ghent Altarpiece public view restoration. The majority of the restoration is complete and the museum has about half of the galleries currently closed in preparation for a huge van Eyck exhibition to open in the Spring of 2020. I was grateful to catch the last opportunity to see how they set up the public view area—complete with a glass enclosure, a computer with the closer to van Eyck website, as well as a light box with an X-ray of the mystic lamb which revealed alterations and damages. Although I came in knowing about the restoration from my student choice speaker, Bart Devolder’s lecture last year, it was so exciting to see it in person. The bottom portion of the altarpiece was still at the Museum, and I was able to see the top register already back installed within St. Bavo’s Cathedral. Another highlight was visiting the Church of Our Lady (Onze-Lieve-Vrouwekerk) which houses the only Michelangelo sculpture outside of Italy, *Madonna and Child*, 1505. The sculpture came to Belgium from Italy in 1504 and is a rather unique depiction of the Madonna and Child showing Mary sorrowful rather than kind and warm. The church also houses ceremonial tombs of Mary of Burgundy and Charles the Bold as well as paintings by Pieter Pourbus and Gerard David.

Travel to numerous museums in Paris allowed me to visit for the first-time iconic institutions including Musée de Lourve, Carrousel Arc de Triomphe, Muse de l’Orangerie, Musee National Eugene Delacroix, Musee d’Orsay, Musee National Picasso-Paris, and Musee Cluny. I feel so fortunate to have been given the opportunity to travel and see these collections as they have not only helped provided larger contexts for my ongoing treatments and the immediate collection I am surrounded with, but also visually demonstrate the diversity of conservation philosophies through treatments.

I believe that this connoisseurship travel has augmented my Mauritshuis internship, providing me with an international perspective on conservation practices. Thank you again for the generous funding that has allowed me to take advantage of visiting nearby European collections.

Sincerely,

Julianna Ly

Enclosed:
Budget

IV. Curriculum Vitae
I. Letter of Intent

I am writing to apply for funding from the Samuel H. Kress Foundation to support a 15-week summer internship in the Furniture Lab at Biltmore House in Asheville, North Carolina. I will be working with Chief Conservator Nancy Rosebrock on a variety of furniture, upholstery, and preventive conservation projects pertaining to the culmination of a multi-year restoration project of their Oak Sitting Room.

Biltmore House is a large historic home located on Biltmore Estate, completed in 1895 by George W. Vanderbilt as a summer residence. The historic house and grounds operate as a museum that is open to visitors year-round. There is a conservation department with two labs near the historic house. The department is responsible for the care and preservation of all historic art and artifacts throughout the estate including a library and archives, historic farm buildings and farming equipment, outdoor sculpture, small gallery spaces, and numerous storage locations, in addition to the 250-room historic house.

Biltmore House and specifically the Biltmore conservation department are close to my heart, as I had the privilege of interning at Biltmore House for a summer in 2015 and have looked forward to returning ever since. As a wooden artifacts major and upholstery minor at WUDPAC, Biltmore was the start of my furniture and upholstery focus; Nancy gave me my first “break” into the specialty and provided invaluable mentorship and guidance. I have since made finding placements with established reputations for teaching and mentorship a priority. I know and trust that I will have an exceptional learning experience at this institution, because I have done it before – but this time, I will be able to return with two years of graduate studies under my belt. I have discussed my learning objects and potential projects with Nancy, especially the skills I want to build upon as I enter my third year. This includes gaining more experience with case furniture and upholstery. I plan to continue to hone the hand skills and material knowledge that I have acquired thus far. I am also prepared and excited to address areas of inquiry and learning which I did not take advantage of in 2015, most especially the prevent conservation aspect of maintaining the house and estate. This includes larger questions of environmental management, integrated pest management, security, and routine preventive maintenance. I am especially eager to participate in their ongoing campaign to re-think storage and how their collection is housed, which is a large aspect of our work with which I have little previous experience.

The conservation department is facing the end of a multi-year project to conserve one of the highlights of Biltmore House, the Oak Sitting Room. I will be able to be there at a crucial time that will not only help the department finish their project on schedule, but will also allow me to experience the operation of the final stage of a large-scale restoration project. The size and breadth of the collection encompasses large case furniture, upholstery, framed paintings, architectural elements, textiles and other objects. The complexity of this process includes the requisite object moves and handling, inevitable last-minute complications and changes to schedule, as well as the overarching preventive issues surrounding the space – environmental, health and safety, among others. This combination of size, scale, and complexity will provide an excellent summer work experience with new challenges that will carry me well into my third-year internship at Colonial Williamsburg Foundation, which houses a even larger and more complex collection and exhibition schedule.

Funding provided by the Samuel H. Kress Foundation would go a long way towards making my summer work project dreams a reality. Please refer to my attached proposed budget for expenses required for this 15-week project at Biltmore House. I thank you sincerely for your time and consideration.
II. Proposed Budget

</table>

**Total Funding Requested from the Samuel H. Kress Foundation:** $4,500

Balance remaining after Kress Funding: $1,340.08 – $2,803.08

---

<sup>1</sup> Rent, utilities and storage unit estimates are for 4 months as that would be the expected billing period for a 15 week project, all other estimates are for the 15 week period only.

<sup>2</sup> Estimate based on monitoring the Sublease Facebook group Asheville Riff-Raff [https://www.facebook.com/groups/330173773725887/?ref=bookmarks](https://www.facebook.com/groups/330173773725887/?ref=bookmarks) which is the most popular sublet housing site for the area, as well as Craigslist sublet site [https://asheville.craigslist.org/search/sub](https://asheville.craigslist.org/search/sub) (both last accessed 15 April 2020).

<sup>5</sup> Estimate based on personal experience.

<sup>6</sup> Two-part trip from Wilmington to Asheville and then Asheville to Williamsburg VA. [https://tollguru.com/toll-calculator](https://tollguru.com/toll-calculator) accessed 3/31/20.

Email correspondence indicating acceptance below:

**Nancy Rosebrock**

Hi, Sarah,

Just checking in with you as I don’t see what HR sends you. **You appear to be hired! 😊**

I need to set a start date for you. I did confirm that you will need to attend BEST orientation again since it has been so long. How does **June 2nd as a start date** sound to you?

15 weeks would carry you through September 15th
16 weeks to September 22nd

Let me know what works best for you.

Thanks,

Nancy
IV. Curriculum Vitae

100 Montchanin Road, Wilmington DE 19807

EDUCATION

Winterthur/University of Delaware Program in Art Conservation
M.S. Degree Expected 2021

- Graduate Fellow in Art Conservation Master of Science Program
- Major: Furniture and Wooden Artifacts; Minor: Upholstery
- GPA: 4.00/4.00

Florida International University
No Degree (Post-Baccalaureate)

- Post-baccalaureate Focus: Chemistry and Art
- GPA: 3.91/4.00

Emory College, Emory University
B.A. Degree 2013

- Double Major: Art History and Anthropology
- GPA: 4.00/4.00

Oxford College of Emory University
A.A. Degree 2011

- GPA: 3.92/4.00

RELEVANT WORK EXPERIENCE

Decorative Arts Graduate Intern, Museum of Fine Arts, Houston TX June – August 2019
Full Time; Supervisors: Steve Pine, Trevor Boyd

- Performed structural treatment of a ca. 1880’s Herts Bros. New York side table with significant loss compensation to damaged pierced fretwork
- Researched and analyzed an 18th-century Newport-style chest of drawers, assisting the curator in assessment of unusual construction features and provenance
- Attended various emergency preparedness and response activities including an all-day symposium
- Co-taught a week-long summer camp for preteens hosted by the MFAH that focused on woodworking, culminating in production of dovetailed boxes made by each camper

Objects & Paintings Technician, Isabella Stewart Gardner Museum, Boston MA August 2016 – June 2018
Full Time; Supervisors: Holly Salmon, Jess Chloros, Gianfranco Pocobene

- Assessed the collection’s condition, maintained gallery appearance, undertook preventive conservation projects, and performed administrative lab duties
- Treated a variety of objects, including an Italian gilded table and gilded chairs, plated silver candelabra, a pair of Chinese lacquer panels, a leather-upholstered Italian stool, a panel painting, and upholstery of a side chair
- Assisted in the Fall 2016 reopening of museum galleries, including reinstallation of objects, mounting and securing artworks, and undertaking minor treatments as needed

Conservation Intern, Masterwork Conservation, Arlington MA September 2016 – June 2017
3-5 Hours/Week; Supervisor: Melissa Carr

- Worked on a variety of furniture conservation projects in a private practice
- Practiced application and restoration of furniture finishes, minor structural repairs, cleaning, and consolidation

3 Days/Week; Supervisor: Kate Moomaw

- Treated bronze, steel, aluminum, and stone sculptures in the museum’s contemporary outdoor sculpture collection; objects received either annual maintenance or in-depth treatment

Conservation Intern, Bynon Art Services, Taylorsville NC September 2015 – May 2016
Full Time; Supervisor: Mark Bynon

- Worked at a private conservation practice with a focus on gilded wood objects
- Treated two large 19th century gilded wood frames, and assisted in preparation of 16 period gilded frame reproductions
- Assisted in a 4-day furniture condition assessment at Hermann-Grima Historic House, New Orleans LA, assessing approximately 100 objects

Full Time; Supervisor: David Bayne

- Worked for three weeks on the treatment of two Hepplewhite parlor chairs, including surface cleaning and extensive inpainting, and cross-section analysis

Conservation Intern, Biltmore Estate, Asheville NC

- Worked for three weeks on the treatment of two Hepplewhite parlor chairs, including surface cleaning and extensive inpainting, and cross-section analysis
- Full Time; Supervisors: Nancy Rosebrock, Anne Battram, Genevieve Bieniosek

Conservation Intern, Biltmore Estate, Asheville NC June – September 2015

- Performed structural repairs and surface treatments, including two wooden chairs and a kneehole desk
- Became familiar with upholstery conservation practices, including de- and re-upholstery of a dining chair
- Surveyed condition of furniture and other decorative objects throughout the historic house and grounds

Conservation Intern, Caryatid Conservation Services, Miami FL

- Performed structural repairs and surface treatments, including two wooden chairs and a kneehole desk
- Became familiar with upholstery conservation practices, including de- and re-upholstery of a dining chair
- Surveyed condition of furniture and other decorative objects throughout the historic house and grounds

Conservation Intern, Michael C. Carlos Museum, Emory University, Atlanta GA January – May 2013

10 Hours/Week; Supervisor: Renée Stein

- Performed condition reports, treatments, and rehousing of current loan objects
- Created a condition survey of on-campus sculpture, which included cleaning and photography
- Treated a bronze object as well as a painted wooden object

Full Time; Supervisors: Jim Concha, Heather Delemarre, David DeAnna

- Completed condition reports and handling and transportation of objects while assisting in the Paintings and Sculpture Collections Management Dept.
- Packed and unpacked objects using archival materials while working in the Packing and Shipping Dept.
- Drafted loan documentation for upcoming exhibits, coordinating with curators and conservators

SCHOLASTIC HONORS

Florida International University

- Dean’s List (all semesters)

Emory University

- Recipient, Dean’s Scholarship; 4-Year Full Tuition Award
- Phi Beta Kappa (inducted Fall 2012)
- Lambda Alpha Anthropology Honor Society (inducted Spring 2012)
- Alpha Epsilon Upsilon Honor Society (inducted 2011)
- Recipient, National Merit Scholarship (4-Year Award)
- Merit List (all semesters)

RELATED ACTIVITIES

WUDPAC Experiences & Relevant Activities

- 2-Day Seminar on Private Practice, Lara Kaplan Instructor with additional guest speakers (January 2020).
- 1-Week Workshop on the Modular Cleaning Program, Chris Stavroudis Guest Instructor (December 2019).
- Multi-day Independent Study on Frame Carving, Chris Storb Guest Instructor (September – December 2019)
- 1-Day Workshop on Wood ID and Microscopy, Randy Wilkinson Guest Instructor (December 2019)
- 1-Day Molding Plane Workshop, Matthew S. Bickford Guest Instructor (October 2019)
- ½-Day Mist Consolidation Workshop, Julie Ream Guest Instructor (October 2019)
- ½-Day Textile Dyeing and Fabric Painting Seminar, Kate Sahmel Instructor (October 2019)
- 1-Day Wooden Panel Painting Rejoining Activity at the Metropolitan Museum of Art with Alan Miller (September 2019)
- 1-Day Textile Under- and Overlay Seminar, Laura Mina Instructor (September 2019)
- 2-Day Carving Workshop, Wallace Gussler Guest Instructor (November 2018)

Conservation Pre-program Experiences & Relevant Coursework

- Recipient, Wooden Artifacts Group (WAG) and FAIC Scholarship to attend Fundamentals in Fine Woodworking 8-Week Class, North Bennet Street School, Boston MA (June – August 2017)
- Basic Upholstery 6-Week Class, The Eliot School, Boston MA (October – December 2016)
• Hand Tool Woodworking Class, Cambridge Center for Adult Education, Cambridge MA (September 2016 – May 2017)
• Woodworking 4-Week Class, Woodworks Studio, Denver CO (July 2016)
• Wood Carving 12-Week Class, Boca Raton Museum Art School, Boca Raton FL (March – May 2015)
• Co-author, poster presentation for 2015 AIC Annual Conference entitled
  Smartphone Colorimeter Technology: Practical Applications for the Conservator, Miami FL (May 2015)
• Bruker Handheld XRF Spectrometer Training and Workshop, The Ringling Museum of Art, Sarasota FL (July 2014)

Professional Memberships
• American Institute for Conservation of Historic and Artistic Works (AIC), Student Member
• International Institute for Conservation of Historic and Artistic Works (IIC), Student Member

SKILLS
• Language Skills:
  o Fluent in written and conversational Spanish
• Computer Skills:
  o Fluent in Microsoft programs including Word, Excel, and PowerPoint
  o Training in both The Museum System (TMS) and Re:discovery Proficio database software
  o Extensive experience with Adobe Photoshop, Bridge, and Lightbox; Filemaker Pro platform
John Krill Advanced Research Award in Paper Conservation and Connoisseurship
and
Betty Fiske Professional Development Award in Asian or Contemporary Art Preservation

$1,000 each annually - Proposal due date February 15

These awards recognize the dynamic careers of John Krill and Betty Fiske, paper conservators and Educators. Both awards advance and strengthen scholarship and research opportunities for early career conservation professionals. We honor these two art conservation educators for their combined 48 years of teaching in our graduate program.

Award Criteria

• The John Krill Advanced Research Award in Paper Conservation and Connoisseurship and The Betty Fiske Professional Development Award in Asian or Contemporary Art Preservation will be made to a current student or a WUDPAC graduate.

• Award recipients will be selected annually, by the WUDPAC Scholarship Committee. Parameters for selection include academic standing, commitment to conservation, project merit, plans for dissemination, service to the field, and financial need. Recent graduates, within the past five years, will be given preference.

• Applicants must submit a detailed statement of intent, one letter of recommendation, a resume, and proposed budget. All materials must be received as an electronic packet by February 15. Late applications or incomplete application packets will not be considered.

• Award recipients will be notified no later than March 30th.

• A total of two $1,000 awards ($1,000 for each award) will be provided annually. Awards are payable to the recipient(s). These are subject to withholding taxes (30%) for University of Delaware students. If the recipient is no longer at the University, the University will submit a 1099 Form for tax purposes.

• The proposed grant project should be completed within a year of the award announcement.

• Students may only receive this award once.

• Award recipient selection(s) will be made without regard to race, age, gender, religion, citizenship, political beliefs, employment status, or any other factor, which could constitute unfair or illegal discrimination.

• Decisions of the WUDPAC Scholarship Committee are final in all matters related to the above practices.

• Award recipients must submit a final summary report detailing how the award was used and results disseminated within 3 months after project or travel is completed.

• A completed application along with any associated documentation should be sent to: Joan Irving at jirvin@winterthur.org

Donations to either fund would be most welcome and should be sent to:
University of Delaware, c/o Susan Behrens, Room 303 Old College, Newark, DE 19716-2515
John Krill

John Krill retired in 2008 after 32 years of teaching and service as paper conservator for Winterthur and an adjunct faculty member for WUDPAC. John received his Master of Arts in Art History from Penn State and a diploma in Conservation from the Institute of Fine Arts at New York University. Before his long and distinguished career at Winterthur, he worked as assistant curator of Prints and Drawings and as paper conservator at the Baltimore Museum of Art (1971-73), and paper conservator at the National Gallery of Art (1973-76). John has served as guest curator at the Victoria and Albert Museum (1987) for the exhibition *English Artists’ Paper: Renaissance to Regency*; as guest lecturer in Durham, England at the 500th Anniversary of papermaking in Great Britain in 1988; and helped plan the program for the 1999 international conference *Looking at Paper: Evidence & Interpretation* held in Toronto. He was co-organizer of the international group Training & Education in Paper Conservation that has met annually since 2003. John authored the landmark book, *English Artists’ Paper*, now in its second edition (2002). John recently received the AIC Sheldon and Caroline Keck Award for teaching excellence. One of his students, best summarizes that “John Krill epitomizes that rare mixture of talent, passion, and intellect governed by integrity and authentic love for the field.”

Betty Fiske

Betty Fiske is an accomplished artist as well as paper conservator. Betty began her career as a printer. Before she discovered conservation, Betty obtained her Bachelor and Master of Fine Arts degrees, specializing in printmaking. For a decade she worked in printing studios, taught printmaking, and curated print collections, including work on the catalogue raisonné for Robert Motherwell’s prints. Betty was inspired to pursue conservation training by Marilyn Weidner with whom she worked prior to her acceptance in WUDPAC. Betty received her Master’s of Science in Art Conservation and specialized in paper under paper conservator Anne Clapp’s guidance. From there she spent 11 years as a paper conservator at the Metropolitan Museum of Art. Betty devoted herself to Asian printmaking and paper studies, conducting research and leading many study trips to Japan and Southeast Asia, acquiring expertise that she generously shared with students and fellow conservators. From 1992 through July 2008 she was paper conservator at Winterthur and an adjunct faculty member for WUDPAC. According to one of her students "Betty supported, encouraged, inspired, and taken me under her wing from the beginning and essentially helped to shape my entire future. I feel very humbled to have had the opportunity to have her as my mentor and realize that it would take a lifetime to attain the vast wealth of knowledge and experience that she has."
The Betty Fiske Professional Development Award in Asian Art Preservation

Applicant: Jacinta Johnson
Application Date: February 7, 2017
Proposed Activity: Hiromi Paper Washi Tour, Japan, March 25 - April 2, 2017

Description of Proposed Activity: An intensive paper conservation-focused tour through several of Japan’s papermaking villages will be led by Hiromi Katayama of Hiromi Paper Inc., and her business successor, Yuki Katayama, in late March 2017. The tour will include visits to papermaking studios to meet Japanese papermakers and toolmakers including Ichibei Iwano, a famous papermaker and designated National Living Treasure, and Masayuki Fukunishi, who holds recognition from the Minister of Education as an individual whose techniques help preserve Japanese cultural assets. Many of the papermakers directly supply the conservation-grade paper sold by Hiromi Paper Inc. The tour will also include a trip to the Tosa Washi Museum which has rooms for the history of washi, raw materials and tools, workshops for handmade paper, and present-day Japanese papers and exhibitions. It will conclude with a visit to meet Mr. Sekichi of Bokusendo, a paper conservator at Kyoto Conservation Studio, who uses traditional techniques to treat scrolls and folding screens. See Appendix A for a detailed proposed itinerary and activity descriptions.

Project Significance: Washi is essential to my work as a paper conservator and is the primary material used for most mending and lining treatments. Though I have begun to form a better understanding of the types of washi available for various treatment challenges, there is still much more to understand regarding grain direction, surface texture, fiber content, sizing, and more. The opportunity to witness the process of both hand and machine-made techniques would greatly contribute to this foundation and aid in my identification of washi. I appreciate the aesthetics of washi and want to experience first-hand the process of making washi, meet the makers, and witness its connection to Japanese culture. Paper is an integral part of Japanese life and art-making and I am eager to see its many uses, as they may educate and inspire future treatment planning. Retracing the steps of many paper historians, enthusiasts, and conservators will also be a professional dream-come-true. Since the tour group is limited to only 10 participants, this tour will offer a chance to form deeper professional relationships with the attending emerging and senior conservators, as well as Yuki and Hiromi Katayama.

After the tour is complete, I will present my observations to my paper, book, and photo conservation colleagues at the Conservation Center for Art & Historic Artifacts, all of whom also use washi in their treatments. I hope to collect as many samples of both raw materials and finished paper as possible, in order that these specimens aid in identification and an overall understanding of the papermaking process.
Projected Budget: The fee for the tour is $3,000 and covers ground transportation, hotel accommodations, and two meals per day. A round-trip flight from Newark, NJ to Osaka ($626.77) was an additional cost for the tour. My CCAHA fellowship research funding will cover $1,000. I am requesting $1000 to help contribute to the overall fee of the tour. See Table 1.

Table 1. Projected Budget for the Hiromi Washi Tour, 2017.

APPENDIX A

Summarized below is a chart I created from the proposed tour itinerary and additional background and description provided by Hiromi Paper.

<table>
<thead>
<tr>
<th>Date/Location</th>
<th>Activity</th>
<th>Background/Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>3/24 (Fri)</td>
<td>Travel Day</td>
<td></td>
</tr>
<tr>
<td>3/25 (Sat): Kyoto</td>
<td>Introduction/Orientation</td>
<td>Once known as the “kingdom of washi”, Kochi prefecture is known for its skilled papermaking and cultivating the kozo and mitsumata used for papermaking. Only 16 households/22 papermakers are left in Kochi, including the younger generations who are trained to succeed their elders in the Tosa washi traditions.</td>
</tr>
<tr>
<td>3/26 (Sun): Kochi Prefecture</td>
<td>• Tosa Washi Museum • Studio visit to meet Osamu Hamada, papermaker of handmade Usu Mino</td>
<td>The Tosa Washi Museum has rooms for the history of washi, raw materials and tools, workshops for handmade paper, and present-day Japanese papers and exhibitions. Osamuresident, the grandson of Sajio Hamada, has the skills to make his old molds and focuses on other art and conservation papers of different sizes and designs.</td>
</tr>
<tr>
<td>3/27 (Mon): Kochi Prefecture</td>
<td>• Hidaka Washi (machine-made Tengucho) • Meet Hironao Hamada, papermaker of handmade Tengucho • Meet Mr. Yamamoto, papermaking tool maker</td>
<td>Hidaka Washi is made in the Hidaka Village (central Kochi) and has been a papermaking site since the 1880’s. Hidaka Washi remains one of the largest machine-made paper making mills to-date, specializing in Tengucho, the thinnest paper in the world. They are the only company known to produce 2gsm paper. Hironao Hamada, the grandson of Sajio Hamada, has taken over the Tengucho-making tradition. Mr. Yamamoto is the only remaining craftsman specializing in hand-crafting suketa (bamboo screens &amp; mold).</td>
</tr>
</tbody>
</table>
3/28 (Tues): Sekishu  
- Meet Sekishu Washi papermaker, Akira Kubota  
- Visit Kawahira Mill (papermaking/paper string)  
- Sekishu Washi Kaikan (museum)  
- Meet Izumo Mingei, papermaker and Mr. Shinichiro Abe Eshiro Memorial Hall  

<table>
<thead>
<tr>
<th>Sekishu Washi</th>
<th>Sekishu Washi is the name for the paper in the western Shimane Prefecture. It is made from kozo, mitsumata, and gampi. Sekishu kozo is known for strength and durability. The Sekishu-banshi Craftsman Association, Sek-Banshi, was designated as an Important Intangible Cultural Property in 1969: the techniques and methods have been preserved by the craftsman in Misumi Town.</th>
</tr>
</thead>
<tbody>
<tr>
<td>We will visit Mr. Akira Kubota and his son, So Kubota, as well as make a stop at Mr. Kawahira’s mill to see papermaking and some rare kami-ito (paper string making)</td>
<td></td>
</tr>
</tbody>
</table>

Eishiro Abe was the first paper maker designated as a Living National Treasure by the Jap government. Shinshiro Abe is his grandson and learned the techniques from Eishiro.

3/29 (Wed): Fukui Prefecture  
- Visit to Fukui papermakers:  
  - Ichibei Iwano (National Living Treasure)  
  - Makiko Iwano (large-size handmade gampi-maker)  

<table>
<thead>
<tr>
<th>Echizen Washi</th>
<th>Echizen Washi developed here. Some historians say this is where papermaking was encouraged and protected. Ichibei Iwano works here and makes high quality hosho: a paper used for Ukiyo-e, and is made from 100% locally grown kozo.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Heizaburo Iwano paper mill is the only place that makes highquality large size handmade papers using kozo, mitsumata, and gampi (3x6 feet to 7x9 feet). The paper needs six makers to move the mold. Heizaburo’s daughter Makiko now runs the mill.</td>
<td></td>
</tr>
</tbody>
</table>

3/30 (Thurs): Nara Prefecture  
- Visit Otaki Shrine  
- Meet Yoshino Uda-gami papermaker, Masayuki Fukunishi  

<table>
<thead>
<tr>
<th>Oakmoto Otaki Shrine</th>
<th>Oakmoto Otaki Shrine: Legend says that about 1500 years ago a goddess taught people how to make paper from kozo when she took sympathy on them when they had no rice fields. She was named Kawa-kami Gozen “upriver princess”. This is the shrine to her.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Masayuki, son of Hiroyuki, continues the tradition from his father making Yoshino-gami. He holds an honor of being the Selected Technique Preservationist by the Minister of Education, a recognition for people whose techniques help preserve Japanese cultural assets.</td>
<td></td>
</tr>
<tr>
<td>Masa continues to research and develop wood ash cooking method. The cooking uses no chemicals. Masa cultivates his own kozo and follows the Uda-gami tradition of drying and beating.</td>
<td></td>
</tr>

Dr. Edward F. and Elizabeth Goodman Rosenberg Travel Awards
for Third-Year WUDPAC Fellows

Grants of up to $2,250 per Fellow are available for intensive research study to visit collections, libraries and scientific facilities, improve connoisseurship skills, study the history of technology, attend relevant seminars and workshops, and to see art and artifacts in their cultural context. Funds are awarded only during the third year of study.

To apply for funding, a brief (1-2 pages) project description that outlines the proposed activities, goals and anticipated outcome, should be submitted to the major supervisor, program director, and Susan Behrens at least one month in advance of the project. A detailed budget must also be included. A final report should be included in the third-year portfolio, an electronic copy sent to the program office for filing as well as to the major supervisor and program director.

These funds can be used to finance costs associated with the allowed third-year research days. Refer to the Program Procedure and Policy Guide for details relating to the use and accounting of research days.

Newark, DE 19716

Bruno Pouliot  
Art Conservation Senior Conservator, Affiliated Assistant Professor  
University of Delaware  
303 Old College  
Newark, DE 19716

Dear Debbie & Bruno,

I am writing to request your consideration of my application for a Dr. Edward F. and Elizabeth Goodman Rosenberg Travel Award to support travel to the American Institute for the Conservation of Historic and Artistic Works (AIC) Annual conference in Chicago, Illinois, May 28-June 2, 2017. Attendance and participation in the conference will provide the opportunity to develop professional relationships, learn about treatment techniques and methods, and practice presenting information to others through a poster, committee table, and organizational meetings.

The theme of this year’s AIC meeting is “Treatment 2017: Innovation in Conservation and Collection Care,” which presents an exciting chance to be exposed to and learn about new treatment and collections care methods as I prepare to graduate and enter the professional conservation community. In addition to strengthening my conservation knowledge base, I will strengthen professional connections and relationships and make new professional connections that could be valuable in the future. Networking will take place at breaks, receptions, and throughout the conference.

Two of my colleagues from the Arizona State Museum and I will present a poster concerning the basketry conservation project carried out at the museum that was an early component of my third-year internship. In addition to fielding questions about the poster, I will assemble and help run the Sustainability Committee table in the exhibition hall as the student member of the committee. Recently I became the Emerging Conservation Professional Network (ECPN) liaison for the Sustainability Committee, so I will participate in ECPN meetings while getting to know ECPN Committee members. I will also meet with APOYOnline members that I have so far only spoken with over conference calls. This winter and spring I have been assisting with the website, so during the APOYOnline meeting I will briefly report about the current state and future goals of the website. It will also be valuable to understand more about the organization, how it functions, and how it benefits conservators in Latin America, so I can articulate these ideas better on the website.

I also look forward to taking the opportunity to strengthen my connoisseurship through museum visits and tours. I will participate in the tour of the National Museum of Mexican Art as well as explore the Art Institute of Chicago and Chicago Historical Society. The AIC conference in Chicago is sure to be an exciting and stimulating experience and funding from a Dr. Edward F. and Elizabeth Goodman Rosenberg Travel Award would help facilitate this learning and growth.

Sincerely,

Leah A. Bright  
NEH Graduate Fellow of Art Conservation, Class of 2017

Leah Bright
132 E. 17th Street
Tucson, AZ 85701

Dear Ms. Bright,

On behalf of the Foundation of the American Institute for Conservation, it gives me great pleasure to offer you an FAIC George Stout Grant in the amount of $625 to be used toward attending AIC’s 45th Annual Meeting in Chicago.

The Stout awards are made possible in large part by the generous contributions of AIC Specialty Groups as well as individual members. If you attend a Specialty Group meeting this year, or see someone wearing an “I Support FAIC” ribbon, please let them know that their contributions made your attendance possible, and encourage them to continue or increase their level of funding for this important resource for student members. It makes a world of difference to our funders to see that their donations are being put to good use!

Please indicate your commitment to this project by signing below and returning a signed copy of this letter along with a completed W9 form to me by February 28, 2017. You will then receive a check in the mail shortly thereafter. As stated in the guidelines, your final report is to consist of a two-page narrative, at least two images, and a final budget summarizing the expenses and sources of revenue for the project. Please submit your final report via email to faicgrants@conservation-us.org within 60 days of completion of the project. I look forward to receiving it.

If you make a presentation or publish material in connection with this award, we ask you to please acknowledge the support of the Foundation of the American Institute for Conservation of Historic & Artistic Works.

Sincerely,

Eryl P. Wentworth
Executive Director

Acceptance Signature: _____________________________ Date: ____________

Dr. Edward F. and Elizabeth Goodman Rosenberg Travel Award
Grant Application

Date: April 27, 2017
Project Title: Gordion Archaeological Excavation

Description of Proposed Activity:
From June 14-July 16, 2017, I will be participating in archaeological conservation on-site at the Gordion excavations in Turkey. The project will be jointly supervised by Jessica Johnson, Head of Conservation at the Smithsonian Museum Conservation Institute, and Cricket Harbeck, objects conservator in private practice. This experience is integral to my understanding of archaeological conservation and will improve my skills for future work with excavated materials.

Gordion is a major archaeological site of the ancient world, located in the central Anatolian village of Yassihöyük. This site has served as a center of excavations and research since the 1950s. Since 1988, the Objects Conservation Program has been an essential part of the ongoing excavations. Conservators play a critical role in the overall project by offering expertise to team members, conducting conservation treatments, monitoring and providing care for stored and exhibited collections, and pursuing conservation research.

During the summer of 2016, I spent two months with the Gordion excavation project working on various treatments and special projects. The opportunity to follow through with preventive care initiatives and large-scale treatments will add immeasurably to my field experience. For example, the treatment of a large ceramic funerary bier was initiated in the previous season. The next phase of treatment will involve making supportive fills and a display structure for the Gordion Museum. Annual projects, such as environmental monitoring in the Midas Mound tomb chamber, will be continued. In addition to continuation and completion of past projects, novel experiences such as the excavation of a new tomb are scheduled.

My supervisors, Jessica Johnson and Cricket Harbeck, are leaders in the field of archaeological conservation. Jessica Johnson combines her training in anthropology and art conservation to address needs in the field and non-laboratory situations. Her great knowledge of materials, such as ancient wooden structures and archaeological
ceramics, is enhanced by the pursuit of research and a collaborative spirit. With a special interest in conservation in crisis areas, she is a valuable resource for students studying multiple facets of heritage preservation. Cricket Harbeck has an extensive background in private practice, including treatment of a range of materials that offer new perspectives to a student intern. Her experience includes decades of hands-on work at the Gordion site, which will help maximize my learning opportunities in Turkey.

With my strong interest in archeological conservation, field experience is a vital component of my training and professional development. Fieldwork often requires quick thinking and resourcefulness, which supplements the skills I have gained working in museum settings. I will be able to deepen my understanding of burial conditions and the effects of the excavation process. Archeological fieldwork stresses the collaborative nature of conservation by bringing together multiple disciplines. Working closely with archaeologists and museum professionals in Turkey will increase my communication skills and broaden my knowledge base. Additionally, the international perspective gained by working outside of the United States will inform future thinking and effectiveness in a global field. I will also use this opportunity to address gaps in my connoisseurship and continue studying cultural heritage sites in Turkey.

The Objects Conservation Program at the Gordion Excavations will advance my awareness of the practical and ethical issues involved in archaeological conservation. Working with established professionals in the field will contribute to my educational goals and increase skill and effectiveness as an emerging conservator. Supplementing this experience with connoisseurship will add depth to my understanding of heritage preservation around the world.

Sincerely,

Julia Commander

Tru Vue, Inc. Study and Research Awards for WUDPAC Fellows
Undertaking an Additional Concentration in Preventive Conservation

With funding provided by Tru Vue, Inc., the Winterthur/University of Delaware Program in Art Conservation has established a grant program to support research and study focused on any and all aspects of preventive conservation.

This program is open to all WUDPAC Fellows undertaking an Additional Concentration in Preventive Conservation.

Awards can be used to support:
- attendance at appropriate workshops or seminars
- conferences where the fellow is giving a paper or poster related to preventive conservation
- research materials or travel undertaken to complete the fellow's short-term research project (a required component of the additional concentration)
- expenses related to a Summer Work Project that has a strong preventive component and is not adequately funded by the host institution

Awards to any student will be made no more than two times. These awards support activities, which will be completed between the summer after the first full year of study and three months after graduation. No single award will exceed $800 with a total per student not to exceed $1,200. Since available funding, and the number of eligible students, varies annually, no award or amount is guaranteed.

Applications will be reviewed by an awards committee which includes the Additional Concentration Advisor and up to two additional faculty members. When considering applications, the following will be taken into account:
- relevance to the field of preventive conservation
- relevance to the Fellow's development as a preventive conservator
- whether the budget demonstrates good financial stewardship
- whether a previous award has already been made

Application can be made at any time but should be made at least three weeks before the funds are needed. It is made by emailing a completed application form to the Additional Concentration Advisor.

No longer than 3 weeks after the completion of the proposed study or research, a report must be submitted to the Additional Concentration Advisor. The report will include an accounting of funds spent which compares the proposed budget with an actual budget and a one to two-page letter. This letter should thank Tru Vue, Inc. for their support and provide details of the experience and its impact.

The letter should be addressed to:

Jennifer Booth
Tru Vue, Inc.

Other funding sources solicited:
Applicant: Nylah Byrd
Date of Application: 5/1/2020
Project Title: Summer Work Project with the African American Museum of Philadelphia
Project Dates: 6/15/2020 – 8/7/2020

Description of Proposed Activity:

The African American Museum of Philadelphia (AAMP) has provided me with the amazing opportunity to spend eight weeks creating safe storage for their Anna Russel Jones Collection. Anna Russel Jones was the first African American graduate from the Philadelphia School of Design for Women and is most known for her textile designs, carpet designs, and graphic print artworks. The collection consists of objects, prints, notebooks, photo albums, scrapbooks, and textiles. I will personally rehouse the three-dimensional objects and create detailed workflow plans for AAMP staff to continue rehousing the remaining materials in the collection after my eight weeks end. I will create similar workflow plans for standard sized materials in AAMP’s Black Cinematography Collection as well. This project will require collaboration between the exhibits department, curatorial department, and myself. Providing safe storage for these collections will help ensure they will be accessible to researchers for years to come so Anna Russel Jones and Black Cinematography can continue to inspire others, just as they inspire me. AAMP plans on hiring a Collections Manager within the next year and this project will provide a starting point for re-organizing and re-housing their upstairs collections space. I look forward to sharing my experiences working at AAMP during public presentations at Winterthur and to art conservation undergraduates in the fall of 2020.

Discuss the relevance of the proposed activity to the field of preventive conservation and your development as a preventive conservator (please be specific):

This project relies on the skills and knowledge I have gained about preventive conservation during my first year of graduate study and will help me work toward my goal of becoming more proficient in creating housings. Building on skills such as project management, interdepartmental collaboration, critical thinking, and effective communication during this internship will aid in my professional development, as they all contribute to what makes a good conservator. Proficiency in rehousing objects as well as the collaborative aspect of this internship will make me a better conservator. After my internship ends, I intend to work with AAMP in developing educational programming that connects proper care and storage of collection materials to the preservation of family treasures. Presenting
on this project will improve my public speaking skills, which are crucial for outreach. Outreach is important for spreading the word about the field of preventive conservation and educating the public about the preservation of cultural heritage.

Applicant: Margalit Schindler

Date of Application: 6/6/2020

Project Title: Preventive Conservation Remote Summer Work

Description of Proposed Activity (Please attach your research proposal, abstract for a paper to be presented, or conference, seminar, or workshop program, if applicable):

As a rising second-year student in the Winterthur/University of Delaware Program in Art Conservation majoring in Preventive Conservation, I had big goals for my 2020 summer projects. I dreamed of driving across the country, surveying Jewish institutions about their preservation practices, and had planned to work with a historic house museum in an effort to make sense of 20 years’ worth of environmental data. All these plans, however, were thwarted with the onset of Covid-19. Not only were our travels permissions revoked by the University, but the State of Delaware invoked the stay-at-home order, meaning any hopes of in-person experiences this summer were dashed. Additionally, as an immunocompromised person, I knew that regardless of the legality, my high-risk circumstances meant that my summer projects would have to take place from the safety of my kitchen table.

I began to furiously think – how could I build a summer that would adapt my planned projects to be completely remote? As I moved pieces on the metaphorical chess board, it became clear to me that these projects could be bigger and more exciting than I had originally thought. Preventive conservation must be flexible, interdisciplinary, and innovative, and these ideas are at the heart of my adjusted summer projects.

My goals for this summer include three projects:

1. Participate in a weekly “Building Pathology Book Club,” lead by Michael Henry, Preservation Architect and Professor at the Graduate Program in Historic Preservation, Weitzman School of Design, University of Pennsylvania. A group of students will read a selection each week and meet to discuss foundational ideas of building diagnostics.

2. Work remotely with the Wharton Esherick Museum to process environmental data (temperature, relative humidity and pest activity). Under the guidance of Kelly Krish, Preventive Conservation Specialist, Image Permanence Institute, and Dr. Joelle Wickens, Associate Director of the Winterthur/University of Delaware Program in Art Conservation, I will work to understand data processing, analysis, and visualization through the lens of the Wharton Esherick data set. I hope to help the institution better understand their environmental conditions, to make
connections between temperature, RH and pests, and to connect all of these to the conversation about building envelopes and pathology in the Book Club.

3. Lastly is a project close to my heart, a survey of Jewish collecting institutions in America to better understand their preservation goals, attitudes, and realities. Originally conceived of as an in-person road trip, the forced shift to digital has actually opened up a deep examination of what a survey can be and the best way to execute it. I will spend this summer researching the idea of surveys, both in and out of a conservation context, and will continue drafting questionnaires and discussion guides for video interviews, to be completed at a later date.

Discuss the relevance of the proposed activity to the field of preventive conservation and your development as a preventive conservator (please be specific):

These three projects are flexible, interdisciplinary and innovative; they are exciting to me as a preventive conservator and are especially important in a time of crisis. Data analysis, environmental monitoring, building envelope, pests and environment, conservation surveys and preservation practices are all valuable topics I will cover this summer, which directly relate to my second-year curriculum and preventive conservation goals. I also have the opportunity to learn from several outstanding preservation professionals, who will strengthen my network, my learning and my summer overall.

Proposed Budget:

<table>

Total Tru Vue, Inc. Funds Requested: $800

Other funding sources solicited: Winterthur/University of Delaware Program in Art Conservation
Society of Winterthur Fellows Professional Development Awards

The Society of Winterthur Fellows has made a generous gift to support graduate students who attend conferences, or who need extra support for their thesis research. The support is competitive and limited. Students may request funding for up to $500; no students will receive more than one award per academic year and none are guaranteed funding.

To secure funding, students must request it by submitting an application to the Director, Winterthur Program in American Material Culture via an electronic application emailed to Laura Schmidt (los@udel.edu). The awards committee will generally give preference to:

- Students in the second year (defined at the end of May) of their program or far advanced on their work.
- Students who are actively participating in the project or program by conducting research, giving papers, or participating in treatments.
- Students who try to acquire additional funding from internal University offices or external sources.
- Students whose application demonstrates relevance to their stated professional goals.

An application form is available as a separate file. Please complete the application and submit electronically to (los@udel.edu). Allow at least three weeks for approval as the committee must confer to review these proposals.

Remember that this is a competitive process and funding is not guaranteed. Students can request funding from $25 to $500. After completion of your research, submit detailed receipts as per your approved budget for funding through reimbursement. Students who receive these funds must prepare a one-page report that may be published online in the Society of Winterthur Fellows Newsletter.

Project Title: Rehousing the Anna Russel Jones Collection

Description of Proposed Activity:
(Please include dates, location, and sponsoring organization and attach conference, seminar, or workshop programs as appropriate)

The African American Museum of Philadelphia (AAMP) has provided me with the amazing opportunity to spend six weeks creating safe storage for their Anna Russel Jones Collection. Anna Russel Jones was the first African American graduate from the Philadelphia School of Design for Women and is most known for her textile designs, carpet designs, and graphic print artworks. The collection consists of objects, prints, notebooks, photo albums, scrapbooks, and textiles. I will be rehousing the three-dimensional objects, which are currently at risk due to the stacking method used inside their current boxes. This project will require collaboration between the exhibits department, curatorial department, and myself. In addition to rehousing the objects, I will create detailed workflow plans for rehousing the remaining materials in the collection. With the workflow plans, the museum can continue this project after my six weeks are over. Providing safe storage for this collection will help ensure Anna Russel Jones’ legacy lives on and will be accessible to researchers for years to come so her story can continue to inspire others, just as it inspires me. AAMP plans on hiring a Collections Manager within the next year and this project will provide a starting point for re-organizing and re-housing their upstairs collections space. I look forward to sharing my experiences working at AAMP during public presentations at Winterthur and to art conservation undergraduates in the fall of 2020. I will also attend the Treasures Program1 on July 11th, organized by the National Museum of African American History and Culture during my time in Philadelphia.

1 https://nmaahc.si.edu/explore/initiatives/african-american-treasures
Significance of proposed activity to your career development:

When rehousing these objects, I will build upon the skills and knowledge I have gained during my first year of graduate study. Building on skills such as project management, interdepartmental collaboration, critical thinking, and effective communication during this internship will aid in my professional development, as they all contribute to what makes a good conservator. I will also work towards my goal of becoming more proficient in building protective housings for a variety of objects. Skills required in order to build protective object housing include identifying object vulnerability, appropriate material selection, and housing design; all of which I will build on during this internship. Well-constructed protective housing mitigates further damage and keeps an object in a more stable state in hopes of preventing the need for treatment. Housing a collection is also more sustainable that treating the collection. Being well versed in protective housings will make me a more versatile conservator. After my internship ends, I intend to work with AAMP in developing educational programming that connects proper care and storage of collection materials to the preservation of family treasures; an initiative inspired by the Treasures Program. Presenting on this project will improve my public speaking skills, which are crucial for outreach. Outreach is important for spreading the word about the field of Conservation, and educating the public about the preservation of cultural heritage.

Graduate College - University of Delaware

Professional Development Award (Travel Award)

This award program provides financial support to graduate students to travel for academic activities, including research, presentations, exhibitions or performance and professional development related to their program of study. Travel is an essential experience that enhances the academic and professional development of graduate students through networking and exposure to scholarly activities underway in their field by other institutions, and provides opportunities to share in-progress research and scholarship with regional, national and global communities.

Equal (1-for-1) cost-sharing from another source, such as College/Departmental/Program or external funding, is required for travel approved after January 1, 2020, unless already approved. Examples of travel eligible for support include:

- Travel for presenting one’s academic work or for professional development
- Travel for research, scholarship, artistic exhibitions or performance
- Travel for archival, collections-based, field or clinical research data acquisition

The deadline for application for a travel award is one month prior to the beginning of travel. Students may apply for more than one award, but the total award permitted during the course of a student’s graduate study at UD is $1,500. The student must conform to University Travel Policy on allowable travel reimbursements.

Policies and Procedures

1. Students should document any paper, poster, presentation, exhibit, performance, research, or professional development planned. This documentation may be an acceptance letter or other confirmation for the destination; an invitation from a laboratory, archive or collection, field or clinical site to allow the student to do research at their location; confirmation of a performance or exhibit; or an email from a faculty advisor supporting participation in an event for professional development.

2. The amount of support will be based on the quality of the application up to a maximum of $1,500 total during a student’s graduate study. These grants are competitive and full funding is not guaranteed. The applicant’s program, department, college or grant source must provide at least
equal, 1-for-1 matching of the award offered by the Graduate College for travel approved after January 1, 2020, unless already approved. Matching may come from internal university sources or external grant funding.

3. The student must submit a detailed budget for the proposed travel using the Estimated Expenses section of the application form below. Applicants should budget for the least costly mode of travel and lodging. Students are encouraged to pool resources whenever possible; for example, if a number of students within a department/program are attending the same conference. Travel expenses may include items such as: parking, airfare or train ticket, roundtrip mileage at current IRS rate, poster printing fee, registration fee, food, lodging, and taxi/bus/shuttle fares. Alcoholic beverages are NOT an allowable expense.

4. Within two weeks of the completion of the conference or approved travel, an uploaded report of actual expenses using the [Graduate Student Travel Award summary form](#) must be submitted. Original receipts are to be submitted to your department.

5. Students must submit an engaging 300 word summary statement/testimonial that will be showcased on the [Graduate College Travel Award web page](#). This should be written for a public audience and should highlight the benefits of professional development in regard to the student’s experience at the University of Delaware.

6. Up to five high resolution images illustrating the trip must accompany the summary and will become the property of the University of Delaware. One of these images must show the student at the destination/travel site (e.g., a selfie). These images may be used in other media: credit will be given to the author if used. The University of Delaware Graduate College reserves the right to edit any summary statement/entry and usage of submission is not guaranteed.

7. Upon submission of the travel summary documents, the student’s academic department will be notified of the funding source (account) and the amount of financial support from the Graduate College. Reconciliation of charges in Concur should be completed within three weeks of return from travel.
This matching competitive grant program will provide funding of up to $300 to graduate students at the Doctoral and Master’s level to support short-term collection-based research travel. Funding may cover transportation and housing expenses.

Proposals should be submitted to Graduate College at least one month in advance of travel and must include:

1. Two-page project description, and proposed date of travel.
2. Curriculum vita
3. Detailed budget with 1:1 match funding from department or program documented.
4. Recommendation from the applicant’s faculty advisor or department/program chair or director attesting to applicant’s progress in their major area of study and suitability for this travel award.

Within two weeks of return from travel, students will be required to prepare a report summarizing their research activities and the influence of this experience on their long-term research goals.

Original receipts should be retained by the student’s department, with a scanned copy sent to the Graduate College with their trip report. After receiving and approving the student’s trip report, the Graduate College will provide the purpose code for the Collection-Based Research Grant to the student’s department for disbursement of the award. A student may apply for funding only once each fiscal year (July 1 – June 30).
The Winterthur/University of Delaware Program in Art Conservation has established a Student Professional Development Fund to provide limited funding for graduate students to pursue activities that go above and beyond the required three-year coursework and that directly relate to their educational and professional development. This funding can help students attend and participate in conferences, workshops, lectures, and seminars focused on the conservation of cultural property and allied disciplines, as well as support annual membership fees in professional organizations.

Please note that this is a competitive process, and funding is not guaranteed. In assessing these applications, the Professional Development Award Committee, consisting of three WUDPAC faculty members, will give preference to:

- Students who are actively participating in a conference, seminar, or workshop by presenting papers or posters or serving on a panel or discussion group or are carrying out a study trip with clear goals related to research or treatments.
- Students who have demonstrated a reasonable effort to gather additional funding or support from internal and/or external sources.
- Students whose application clearly demonstrates relevance to their stated professional goals.

A detailed and well-written proposal that addresses all areas on the attached application form should be sent by e-mail to the Professional Development Award Committee. (The committee members will be announced annually in September). While proposals can be submitted at any time, allow at least two weeks before the proposed activity, as you may be requested to make modifications prior to funding.

Students are eligible to apply for funding from $25 to $300 per academic year. Effective September 1, 2018, students may apply for up to $600 total for two consecutive years (i.e. the first and second years, or second and third years) of the Program. More than one application per student can be submitted, provided the total received does not exceed $300 per academic year, or $600 over two consecutive years. A total of no more than $600 can be expended in year one and two of the program of study; remaining funds cannot be encumbered for year three. Support for unfunded summer work projects can be provided over two consecutive years (totaling $600) but proposals must be submitted prior to June 30th; students must also demonstrate they have sought additional funding from other sources.

For students in their first and second year of the Program, the application for funding must be submitted and professional development activities completed prior to June 30th. For students in their third year of study, applications must be submitted by August 1st and activities completed by September 1st.

A half- to full-page report must be submitted within a month after completion of the funded activity for all awards of $250 or more. This final report should outline expenditures and address the immediate and long-term professional benefits of this experience.

Winterthur/University of Delaware Program in Art Conservation Student Professional Development Grant

Application

Applicants Name: Kelsey Wingel
E-mail Address: kelsey.wingel@yale.edu
Date: March 18, 2018
Project Title: AIC Annual Meeting – Houston, TX

Description of Proposed Activity: From May 29 – June 2, the American Institute for Conservation of Historic and Artistic Works (AIC) will hold its annual meeting in Houston, TX. With the theme “Material Matters,” this conference will bring together conservators across specialty groups to share discoveries, research, and treatments. With many pre-conference professional development opportunities, the annual meeting will consist of two days of workshops, tours, and symposia, followed by three days of general and specialty session talks. In applying for Professional Development Funding, I hope to attend the pre-session workshop “Installation and Use of Automated Thread Count Software,” as well as the three days of general and specialty session talks.

The complete meeting program can be accessed through the link below: http://www.conservation-us.org/annual-meeting/aic-annual-meeting/2018-complete-program

Significance of proposed activity to your career development: This May, I hope to be able to attend the AIC annual meeting in Houston, TX. This meeting provides the opportunity for conservators to focus on professional growth, share their work, learn about new approaches to treatment and analysis, and build connections with other conservators. It promotes career-long learning among conservators and facilitates collaborations between collections and allied professionals. The annual meeting also serves to unify the national and international conservation community and promote intellectual growth. I believe in the importance of attending this meeting throughout all stages of one’s career. As an emerging professional and hopeful graduate of the WUDPAC Class of 2018, I believe that this meeting will allow me to enhance my knowledge of treatment methods, material characteristics, and scientific analysis as they pertain to cultural heritage, while also participating in conversations about the direction of the conservation field and meeting other conservators, scientists, and students.

This year’s meeting program is packed with unique talks, networking opportunities, and thought-provoking sessions. I am greatly looking forward to the session “Materiality: A Series of Questions,” led by two conservators whom I greatly admire: Lance Mayer and Gay Myers. I am eager to learn more about the risks of vibration in the talk “Vibration-induced Mechanical Damage in the Canvas Paintings of Georgia O’Keefe as a Result of Road and Air Transport,” (Kronkright, Palan, and von der Lieth). I am also looking forward to Roxane Sperber’s talk about archival sources in the study and treatment of a George Fuller painting, which I had the pleasure of seeing when I visited the Worcester Art Museum labs. Many of the talks on imaging technology will allow me to improve my knowledge of new imaging techniques (a weak spot within my skillset), and I hope to attend several different specialty talks.

In addition to attending the general and specialty session talks, I also hope to participate in the pre-session workshop “Installation and Use of Automated Thread Count Software,” led by developer Don Johnson. This workshop will allow me to learn about a data processing technique that I have been fascinated with for several years. In learning how to download, install, and use the thread counting software to take thread counts of woven textile supports, it will be possible to discover more about the origins of
these supports. Additionally, in learning how to use the associated database, one can search for canvas matches. Learning this skill will be an excellent tool in the future, enabling me to be able to study collections more thoroughly. Specifically, this skill will aid my future work with the Abbey paintings collection at the Yale University Art Gallery, many of which come from the same or similar rolls of canvas.

**Proposed budget:** The table below outlines the total approximate expenses for attending this conference. I am applying for $300.00 from the professional development fund to support my attendance.

This is a nominated scholarship – discuss with your major supervisor if you would like to be considered.

**Janice Carlson Scholarship for Conservation Science**

This award is presented to an advanced Winterthur/University of Delaware Program in Art Conservation Fellow to support participation (registration, transportation, and lodging) in the Infrared and Raman User’s Group Meeting or other national or regional conservation science conference.

This award is a tribute to conservation scientist Janice (Jan) Carlson who taught in the Winterthur/University of Delaware Program in Art Conservation from its inception in 1974 to 2004, and whose dedication and commitment to the education and training of future conservation professionals remains an inspiration to our faculty and graduates.

Under Jan’s guidance, our students learned the fundamentals of spectroscopic and chromatographic analysis and developed hands-on experience and familiarity with bench-top, instrumental, and analytical methods as they related to the activities of conservation. Jan encouraged our graduate conservation students to excel and to contribute to new conservation research and scholarship and her teaching promoted the value and importance of professional collaboration.

WUDPAC faculty may nominate prospective candidates to the Janice Carlson Scholarship Committee: Dr. Jocelyn Alcantara-Garcia (chair), Rosie Grayburn, and Catherine Matsen.

Nominations are due October 15. The award will be made by November 15.
Taxes

The federal government requires the University to withhold state and federal income taxes on all salary paid to graduate students. (Fellowships are an exception and stipends from fellowships are not assessed state and federal income tax.) FICA and Medicare taxes are not withheld if a graduate student is registered at least half-time in the semester of the payment. Half-time is defined as a minimum of 5 graduate credits in fall and spring and 3 graduate credits in summer. Payroll taxes are not withheld or charged on the value of a tuition scholarship.

Graduate students who are less than half-time or any graduate student paid during a time when not attending classes are subject to all payroll taxes, including FICA and Medicare.

If you have additional question on this, please call or contact the Payroll Department at 302-831-8677 or pr-staff@udel.edu.
