transfercredit@udel.edu

Currently enrolled students who want to take courses at another institution and transfer the credits to UD must have the coursework approved by their Assistant Academic Dean prior to registration at the other institution. Detailed instructions associated with this form and the transfer process are available at: www.udel.edu/registrar/transfer/transins. Students are also required to review the UD Academic Catalog regarding Transfer Credit, Accreditation and Residency Requirement policies prior to taking courses at another institution.

After completing external coursework, students are responsible for submitting an **official** transcript to the Registrar's Office. Only grades of "C" or higher may be transferred. Accepted transfer credits are not included in the UD grade point average and appear as a "T" on the UD transcript. Courses taken under other credit systems will be converted to U.S. semester hour credits. A \$75 transfer processing fee, **for each term and each institution**, is applied to the student's financial account once the credits are posted to the student's record.

I have read the information and understand my responsibilities with regard to transferring credits to the University of Delaware:
